

Kiernan Group Holdings, Inc. (KGH), a Woman Owned Small Business (WOSB), is a Risk Management firm that examines threat spectrums impacting the public and private sectors to identify risk, mitigate surprise, and build a platform of resiliency to drive organizational decision cycles. Our comprehensive training program **educates**, **engages**, and **empowers** individuals and their organizations to prepare for, react to, and recover from disruptive attacks and incidents. KGH operates at the intersection of fear and fact, understanding that too much or too little of either can crimp an organization and allow for an adversarial advantage.

EDUCATIONAL RESOURCES OVERVIEW

Sample courses and curriculums:

- Active Threat/Shooter Preparedness
- Workplace Violence Prevention
- Insider Threat
- Resuming Operations During a Pandemic

As a direct result of the COVID-19 global pandemic, we designed new courses for remote delivery which help organizations navigate the complexity of operations during, through, and following the pandemic. This includes the updating of plans, policies, and procedures in consonance with national level legal and compliance requirements.

CORE CAPABILITIES OVERVIEW

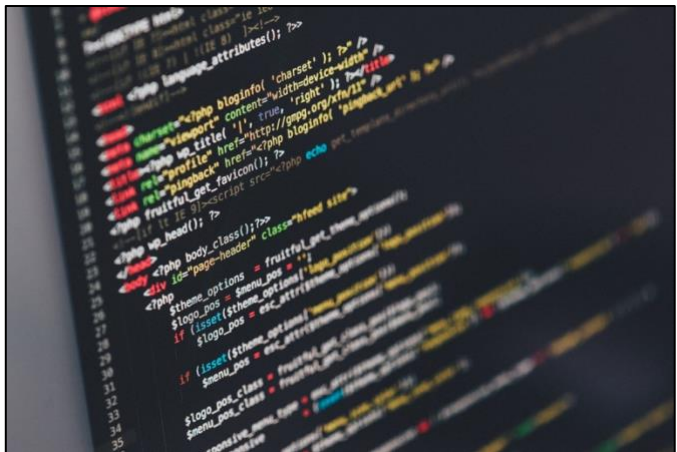

- Preparedness: Training and Exercises
- Insightful Analysis: Data and Intelligence
- Emerging Technology Innovation Center™

- Crafty Bastards®
- Pathway to Preparedness

Comprehensive Preparedness: Training and Exercises

KGH customizes training and Table Top Exercises (TTX) delivered remotely or in-person. The process includes a Preparedness Review (PR) and Gap Analysis which results in practical and actionable recommendations. All training is metric, and certificate based, and in compliance with national level legal standards and requirements.

Robust Analysis: Data and Intelligence

At KGH, we utilize state of practice, data driven capabilities to understand, exploit, visualize, and report existing threat environments. This reporting enables clients to exercise cognitive agility and flexibility with current data.

Emerging Technology Innovation Center™

The Emerging Technology Innovation Center™ (ETIC) provides a critical bridge between the public and private sectors to match technology requirements to need and provides Testing and Evaluation (T&E) services.

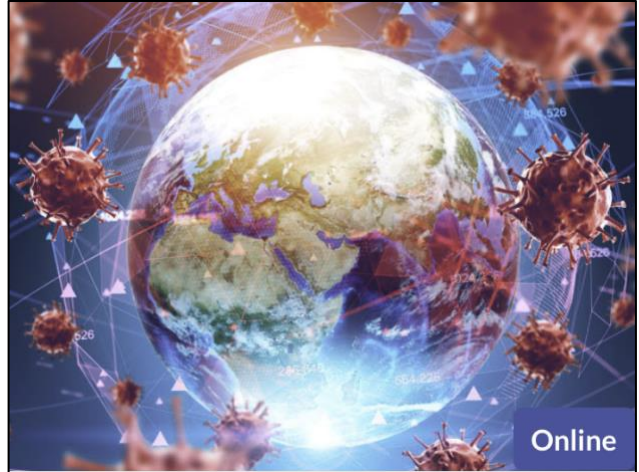

The ETIC operates in both the cleared and open environments which engages solution developers of all Technology Readiness Levels (TRLs). Current areas of focus include: Identity Management Solutions, Biometrics, Artificial Intelligence (AI), tools for determining adversarial probing.

Furciferi Versuti® - “Crafty Bastards”

“Crafty Bastards” is a highly specialized analytic process created exclusively by KGH to provide multidisciplinary problem solving and tailored solutions for the world’s most complex current and emerging threats and challenges. Scalable, agile, and adaptable to stakeholder needs and preferences, Crafty Bastard Workshops embraces the philosophy of disruptive learning to facilitate breakthroughs in thinking and action.

Pathway to Preparedness

Navigating the uncertainty brought on by the global pandemic does not mean starting anew. It involves utilizing earned experience and knowledge and adapting it to a changed and changing environment. KGH offers both in-person and online resources to facilitate that process.
