

Resource List

The following is a partial listing of the counterintelligence resources available to the Defense Industrial Base. Contact your FSO, DSS IS Rep, or local DSS CI Office for more information.

Defense Security Service (DSS) and the DSS Counterintelligence (CI) Office

DSS has several resources available to cleared contractors. Specifically, the DSS CI Office publishes an annual threat trend analysis report, brochures, and other information related to specific threats and collection methods. Resources available from the DSS CI Office are accessible via the counterintelligence page of the DSS website at <http://www.dss.mil>.

Federal Bureau of Investigation (FBI)

The FBI has primary responsibility for counterintelligence investigations within the U.S. They have a variety of resources including:

- Counterintelligence Strategic Partnership: A program that shares information related to the U.S. vulnerability to foreign powers, terrorist groups, and other criminal elements
- InfraGard: Provides information related primarily to cyber threats and threats to critical infrastructure

Security officials may contact their local FBI offices to become involved in these programs and to request more specific threat information, when appropriate and needed. To locate contact information for your local FBI office, refer to <http://www.fbi.gov>.

Other Federal Sources of Counterintelligence Information

In addition to the FBI, other federal sources of information include, but are not limited to:

- Department of Homeland Security (DHS): <http://www.dhs.gov>
- Defense Intelligence Agency (DIA): <http://www.dia.mil>
- Department of State Bureau of Diplomatic Security: <http://www.state.gov/m/ds/>
- National Counterintelligence Executive (NCIX): <http://www.ncix.gov>
- The Interagency OPSEC Support Staff: <http://www.iooss.gov>

Government Contracting Activity (GCA)

Your facility's GCA may provide contract-specific threat information and program threat assessments. Contact your GCA for program-specific information.
